

The marketing *playbook*.

A field guide for the marketing team — brand system, message house, audiences, channels, the outreach campaign, and a ready-to-run A/B testing plan. Built to disrupt the Medicare & AgeTech category, not just run campaigns.

Four strategic assets. *One control point.*

01

Category vanity brand

A priceless, category-defining national number — the most memorable front door in Medicare.

02

Lead-&-routing engine

A profit engine that captures demand and routes it intelligently into recurring revenue.

03

Predictive acquisition

Proprietary data that lowers CPA and targets high-LTV members before competitors.

04

AI autonomous workforce

An AI workforce that educates, converts & cross-sells 24/7 across the ecosystem.

*Whoever owns the category's most trusted, most memorable entry point — and the technology to convert and scale it autonomously — **owns a control point, not a campaign.***

One message. *Four pillars.*

CORE MESSAGE

1-800-MEDIGAP is the front door to the retirement economy.

The Front Door

A category-defining number = trust + recall. Inbound demand at a structurally lower CAC.

The Profit Engine

Capture & intelligent routing turn a call into a recurring, multi-product relationship.

Predictive Edge

Proprietary data finds high-LTV members and lowers cost per acquisition.

Autonomous Scale

AI educates, converts & cross-sells across 28+ revenue streams, around the clock.

Proof: \$15K-\$50K+ illustrative LTV

20+ year customer horizon

28+ revenue streams

Benchmarks: FLWS · Contacts · PetMeds

BRAND SYSTEM

VOICE & TONE

DO

- ✓ Confident, strategic, plain-spoken
- ✓ Lead with value & proof
- ✓ Respect the reader's time

DON'T

- ✗ Hype, jargon or fear-mongering
- ✗ Over-promise or over-claim ROI
- ✗ Consumer Medicare claims w/o compliance

AUDIENCES

Who we're talking to — and *what they want*.

Strategic Partners

INSURERS · CARRIERS · INSURTECH · AGETECH

Want: distribution, a trusted brand, and a lower-CAC acquisition channel. Hook: the control point + predictive routing.

Investors

PE · VC · FAMILY OFFICE · STRATEGICS

Want: enterprise value, defensibility, recurring revenue. Hook: LTV, moat, benchmark comps, category ownership.

Sponsors & Advertisers

SENIOR BRANDS · PHARMA · FINANCIAL

Want: qualified reach into the 65+ ecosystem. Hook: trusted destination + first-party data (with consent).

Licensing / M&A

ACQUIRERS · PLATFORMS · ROLL-UPS

Want: a category-defining asset & tech stack. Hook: brand + IP + AI workforce as a bolt-on platform.

Agents & Advisors

FMOS · IMOS · INDEPENDENT AGENTS

Want: warm, high-intent leads & tools. Hook: lead-&-routing engine + cross-sell across 28+ products.

(Downstream) Consumers

MEDICARE BENEFICIARIES 64-66

Want: trusted, simple guidance. Note: consumer campaigns must follow CMS/state marketing rules.

Where the campaign *runs*.

Targeted Email Outreach

PRIMARY · 1:1 & ABM

Personalized sequences to a curated list of partners & investors. The workhorse of this playbook.

LinkedIn (ABM)

PRIMARY · SOCIAL SELLING

Warm the account before/after email — connection, thought-leadership, and DMs from Jeff.

Landing Pages

CONVERSION

The "Disruption Playbook" page + gated one-pager. One clear CTA: reply / book a call.

Retargeting

AIR COVER

Display/LinkedIn retargeting on page visitors — keep the asset top-of-mind through the deal cycle.

Direct Mail

DIFFERENTIATOR

Premium printed one-pager / postcard to high-value targets — cuts through a crowded inbox.

Podcast & PR

AUTHORITY

Founder interviews & earned media build the category-defining narrative and inbound demand.

Sequencing: LinkedIn connect → Email touch 1 → Direct mail to A-tier → Email touch 2 (proof) → Email touch 3 (breakup) → Retargeting throughout. Reply "Interested" routes to Jeff for a 20-minute intro call.

THE OUTREACH CAMPAIGN

A three-touch *sequence*.

TOUCH 1 · DAY 0

The Introduction

The strategic-asset email (in this package). Sets the frame: a small number of partners, one control point, an invitation to see the playbook.

SUBJ A/B: "A strategic conversation for 2027" ·
"Every industry is a geek away from being Uberized"

TOUCH 2 · DAY 4

The Proof

Short follow-up with the benchmark + LTV comps and a link to the one-pager. "Here's why the math is different."

SUBJ A/B: "The math behind the front door" · "\$900
vs \$50,000 — same playbook"

TOUCH 3 · DAY 9

The Breakup

Respectful last touch. "Closing the loop — worth a 20-minute look?" Creates urgency & scarcity without pressure.

SUBJ A/B: "Should I close your file?" · "Last note
on 1-800-MEDIGAP"

Reply-based CTA (**reply "Interested"**) keeps deliverability high and signals intent. Keep the whole sequence under three sends per contact to protect the sender domain.

LTV : CAC
The strategic advantage we sell

Track by segment & by A/B arm. Roll winners into the control weekly. The story we're proving in-market is the same one we sell: **higher LTV, lower CAC.**

A simple *quarterly rhythm*.

Q1 · BUILD

- Finalize brand kit & landing pages
- Curate A-tier target list
- Warm accounts on LinkedIn
- Launch email sequence v1 + A/B

Q2 · SCALE

- Roll winning subject/CTA
- Add direct mail to A-tier
- Retargeting live
- First partner/investor calls

Q3 · AUTHORITY

- Podcast & PR push
- Case studies from early wins
- Expand segments (sponsors)
- Optimize funnel on data

Q4 · CONVERT

- Close strategic conversations
- 2028 planning & budget
- Double down on top channel
- Report EV / pipeline impact

Operating rhythm: weekly A/B readout · bi-weekly pipeline review · monthly channel reallocation toward the lowest cost-per-conversation.
